

Parent COVID Guidelines for Orchard Place Campus

Follow these CDC recommended guidelines to protect your child and to reduce the spread of the virus to others on campus.

Scenarios	When can I visit with my child?
<p>I feel healthy but I've been in contact with someone with a fever and a cough who has been advised to quarantine at home but they have not received a test.</p>	<p>You will be able to have a visit with your child when the symptomatic person has not had a fever without the use of medicine for 72 hours and symptoms have improved AND 7 days have passed since the original symptoms first appeared. OR If unsure if symptoms have ended, you should wait 14 days to visit.</p>
<p>I feel healthy but I have recently traveled internationally OR I live with someone who has tested positive OR I live with someone who has COVID symptoms who has been advised to quarantine.</p>	<p>You will be able to have a visit with your child after 14 days assuming you are asymptomatic.</p>
<p>I am showing COVID symptoms and have been advised by a healthcare provider to quarantine.</p>	<p>You will be able to have a visit with your child when you have not had a fever without the use of medicine for 72 hours and symptoms have improved AND 7 days have passed since the original symptoms first appeared.</p>

Tips to Stay Healthy
