ADVOCATE PHONE CALLS: Residents will be assigned a Milieu Treatment Counselor to be their Advocate. This staff member will meet weekly with the resident to review their treatment plan, help them set weekly goals and be an extra support person for the resident. The Advocate will also be conducting weekly parent phone calls where he/she will provide an update on the resident's progress for the week regarding unit behaviors and other pertinent treatment details.

Please expect a call from your child's advocate within the next 7 days. He/She will then work with you to schedule a weekly advocate call schedule.
